“Together we preserve the unique nature of our neighbourhoods”

SPECIAL DELIVERY!

The Treasure Map and student artwork from the RA Tree Ribbon Campaign was delivered to The Scarborough Historical Society for safekeeping and to leave a record of treasures currently found in our neighbourhood forest. The Tree Ribbon Campaign was launched in 2021 to bring attention to our neighbourhood forest at risk of being lost if the decisions made do not consider the value of our mature trees. Ribbons that marked the location of 20 Majestic Trees throughout the tour have now been taken down but you can still follow the tour using the photos to find the location of trees, in fact our hope is the trees on this tour can be visited for many years to come.

Above photo of Rick Schofield with Treasure map and student artwork left at the Scarborough Historical Society for safekeeping

What remains to be seen is what will be discovered when someone compares the Treasure Map from this 2021 tour to the landscape in 20 years? Will these mature majestic trees, treasures, still be found standing in our neighbourhood forest?

ABOUT THE TREE RIBBON CAMPAIGN

The Tree Ribbon Campaign was launched by the **Cliffcrest Scarborough Village SW Residents Association** to bring attention to the neighbourhood forest at risk of being lost if the decisions made about these neighbourhoods do not give consideration to the value of our trees.

Students from Bliss Carman Public School getting a lesson on the benefits of trees
In November of 2020 the Grade 7 Class of Bliss Carman Senior Public School visited 3 Windy Ridge Drive and were given a lesson about the benefits of trees while sitting on the front lawn. They were

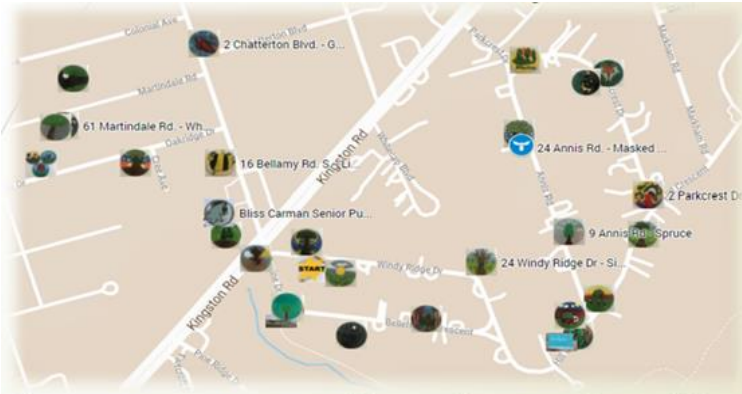

introduced to the **iTree Tool** and more. Details about the Tree Ribbon Campaign was shared with the students and they were invited to participate as Stewards. They accepted and took back to school the badges that would be transformed into

artwork that would be pinned to trees selected for the tour.

Continued from page 1

A Treasure Map was created giving coordinates of trees pinned with badges of honour, artwork created by the students, pinned to yellow ribbons. Each badge pointed to learnings to the tree age, value to existing ecosystem and more. Visitors were invited to take a self-guided tour to discover the treasure found in these neighbourhoods, our tree canopy.

Some of the artwork by our young stewards & trees on the tour

YELLOW RIBBONS TO RED

Yellow ribbons to Red... for the month of December 2021 all the artwork created by students was on display at 3 Windy Ridge Drive

decorated with red ribbons. Badges on the tour were replaced with snowflakes so that residents could continue to follow the tour for a little longer over the winter. A BIG thank you to homeowners that hosted the yellow ribbons for summer and fall of 2021 and agreed to continue to keep the yellow ribbons up over the winter so we could all continue to enjoy the tour! Watch for Part 2 coming soon!

MILK CRATES

Tree Ribbon Campaign Dedication to Patrick Smith,

former owner of 3 Windy Ridge Drive. His daughter, after seeing the story about the Tree Ribbon Project in the Bluffs Monitor Newsletter drove by to my home to see the ribbons on my front lawn. She sadly told me her father; Patrick had passed away that very day. She said he would have loved to have seen the students sitting on his old milk

crates on the front lawn he tended to for many years learning about the benefits of trees. It was my pleasure and delight to put together this treasure map for residents and visitors. I hope you continue to visit and enjoy nature's glory! Sincerely,
Marina Tadenc
Director VP, CSVSWRA
